

# Commercial Businesses

## Conserve Your Bottom Line with These Programs

- 💧 **Free Water Survey:** A Water Use Survey of your business (interior and/or exterior) will determine the most cost-effective measures to implement to reduce water and sewer costs.
- 💧 **Commercial High-Efficiency Washer Rebates:** Save 35-50 % in water, energy, and sewer savings, and clean clothes better by using new high-efficiency washers. The high-efficiency washer rebate offers \$350 per machine (combined water and energy). For program details, go to [www.conservationrebates.com](http://www.conservationrebates.com), then to *Commercial Laundry*.
- 💧 **Free Pre-Rinse Dishwashing Sprayer:** Save 15-30 % in water, energy, and sewer costs, and cleaner dishes by using a high-velocity, low-volume, pre-rinse dishwashing sprayer.
- 💧 **High-Efficiency Toilet Rebate:** Save 54 % in water and sewer costs by replacing existing pre-1992 toilets (3.5 gpf or more) with High-Efficiency Toilets (1.28 gpf or less). The rebate is 100% of the toilet tank and bowl, up to \$175 per unit.
- 💧 **Low-Flow or Zero Water Urinal Rebate:** Save water and sewer costs by replacing existing pre-1992 urinals (2 gpf or more) with High-Efficiency Urinals (0.5 gpf or less). The rebate is 50% of the urinal valve and bowl, up to \$75 per unit. Visit [www.cuwcc.org](http://www.cuwcc.org) (Product News, Urinals) for more information on this technology.
- 💧 **Water Broom Rebate:** Save water and time by using a water broom to clean more efficiently. The water broom rebate is 50% of the water broom cost, up to \$75 per unit. For information, visit [www.watermiser.com](http://www.watermiser.com) or [www.waterbroom.com](http://www.waterbroom.com).
- 💧 **Cooling Tower Conductivity Meter Rebate:** Save 50% of the water and chemical costs of a cooling tower by installing a conductivity meter to regulate cooling tower make-up and bleed water. The rebate is 50% of the cost of the conductivity meter, up to \$500 per unit.
- 💧 **High-Efficiency Sprinkler Head Rebate:** Increase efficiency by 10% – 30% by replacing current sprinklers with Multi-Stream, Multi-Trajectory Rotating Nozzles. The rebate is \$4 per nozzle, plus \$3 for new sprinklers, if needed.
- 💧 **Smart Irrigation Controller Rebate:** Reduce water use up to 50% in the landscape by replacing existing controllers with timers that use weather information to adjust their schedule daily. Rebate is 100% of the material cost, up to \$40 per active irrigation station..
