

Water Rate Schedule - Effective March 31, 2016

Water Service Charge

Water Service Charges are based on the size of a standard meter:

Meter Size (Inches)	Two Month Service Charge
Lifeline rate	\$ 28.30
5/8"	\$ 56.60
1" (with fire service requirement)	\$ 72.86
1"	\$ 127.30
1.5"	\$ 245.16
2"	\$ 386.58
3"	\$ 763.58
4"	\$ 1,187.76
6"	\$ 2,366.02
8"	\$ 4,251.22
10"	\$ 6,843.32

Water Usage Charge

A Water Usage Charge is for water delivered based on meter readings. (One HCF unit is 748 gallons)
This includes an elevation surcharge based on the pressure zone in which the service connection is located (m.s.l. = mean sea level). Pressure zones are determined by elements that include elevation and pressure.

Zone	Elevation	Amount per HCF
1	Service elevation 0-150 feet above m.s.l.	\$ 3.91
2	Service elevation 150-300 feet above m.s.l.	\$ 4.15
3	Service elevation 300-450 feet above m.s.l.	\$ 4.31
4	Service elevation 450-600 feet above m.s.l.	\$ 4.57

Drought Temporary Pricing Adjustment

Effective July 1, 2015 a temporary pricing adjustment of \$0.50 per HCF will be billed.
