FOR IMMEDIATE RELEASE

PRESS RELEASE #11.1.2018

**Subject: Measure D Paving Update**

**Contact: Rica Guidry, Executive Assistant to the City Manager, (925) 372-3505**

MARTINEZ – The Martinez City Council recently awarded two major paving contracts which will utilize Measure D funding: the 2018-19 Paving Project and the 2018-19 Measure D Pavement Rehabilitation Project. This coming Saturday, November 3<sup>rd</sup>, the first phase of paving work will begin on portions of Center Avenue near the Nob Hill Shopping Center.

The 2018-19 Paving Project was awarded to local paving contractor MCK Services of Martinez and includes \$1,351,300 in Measure D funds to supplement \$1,280,361 in Measure J and gas tax funds to fully implement the project. The project will include completing base failure (pothole) repairs throughout the months of November and December on numerous City streets **within 12 area locations** scheduled for cape seal. The project also includes an alternate bid item to perform an asphalt overlay on Center Avenue south of Muir Road and Center Avenue from Vine Hill Way to Redwood Drive. The first phase of this work includes the replacement of concrete curb ramps which do not meet Americans with Disability Act (ADA) standards. Paving work in the area of the Nob Hill Shopping Center heading east will commence this coming Saturday, November 3<sup>rd</sup>. Message boards have been placed on Center Avenue to advise the public of the upcoming work.

The 2018-19 Measure D Pavement Rehabilitation Project includes a total Measure D allocation of \$2,725,000. American Pavement Systems, Inc., from Modesto, CA, was awarded the contract to cape seal streets in residential areas throughout town and micro-seal several downtown streets. Work on this project will commence following the base failure repair work performed by MCK and is, of course, subject to good weather conditions necessary for completion.

The City will provide additional updates on Measure D work in the coming weeks and months, including information about the next Measure D Street Selection Workshop which will be held in January 2019 at a date to be announced.
